### **Re: CARLSBAD-LIST: Agenda for the July 24 Energy Commission Business Meeting - Item 2 is Carlsbad Energy Center**

I attended all the meetings for years now and I have come to the conclusion that the meetings with the community are just a sham to make a show of concern that does not actually exist. The individuals living and serving in this community are overwhelmingly against building yet another Power Plant on the coast a few feet from the freeway. It must be quite a chore for the commissioners to show up here and pretend that they really care about the health of the families here. It is Big Business and Government getting it wrong again and the heck with the consequences .

There is a giant Marine Base up the road a few miles with a switching Station and lots of open space that even our politicians admit would be a good choice if we do actually need more power.

I heard the representatives of NRP tell bold lies about the emissions affecting our air quality .
